

AI-POWERED PROOF OF COMPLETION

PROOF OF COMPLETION FOR CONTRACTORS

Complete the job. Capture the proof. Get paid.

Contractors complete thousands of jobs every month. But proving the work is often still handled through scattered photos, notes, texts, forms, and emails.

That creates paperwork, approval delays, disputes, callbacks, and unnecessary administrative work.

THE PROBLEM ISN'T COMPLETING THE WORK. IT'S PROVING IT.

Kaulii helps contractors create trusted proof of completed work before the crew leaves the site.

Kaulii combines AI, guided job capture, video, photos, timestamps, location data, and automated verification to turn completed work into a professional proof-of-completion record.

LESS PAPERWORK.**FEWER DISPUTES.****FASTER APPROVALS.****COMPLETE THE JOB. CAPTURE THE PROOF. GET PAID.**

Guided capture in the field — for HVAC, electrical, plumbing, roofing, GC, restoration and solar crews.

HOW KAULII WORKS

FROM COMPLETED WORK TO PAYMENT-READY PROOF

01 OPEN KAULII

Open Kaulii on any phone from the truck, job site, or work area.

02 RECORD THE WORK

Follow a guided workflow that tells the technician what evidence to capture.

03 CAPTURE PROOF

Capture video, photos, timestamps, location, equipment details, and technician explanation together.

04 AI VERIFIES THE EVIDENCE

Kaulii's AI analyzes the job documentation and identifies missing or incomplete evidence.

05 CREATE THE PROOF PACKAGE

Generate a professional completion record ready to share with the customer, GC, supervisor, or insurer.

06 GET APPROVED

Attach the proof to the approval or invoice workflow and move the job forward.

AI-POWERED VERIFICATION

PROOF SCORE™

KNOW THE JOB IS DOCUMENTED BEFORE YOU LEAVE.

Proof Score™ uses AI to evaluate whether the required evidence for a completed job has been captured and identifies gaps while the crew is still on site.

START SMALL

START WITH ONE CREW. ONE JOB TYPE. ONE PROOF STANDARD.

Kaulii can start with a focused workflow for one crew or job type and expand once the process is proven.

1. Select one high-volume job type
2. Define the required proof
3. Equip the crew with Kaulii
4. Capture completed jobs
5. Measure documentation time, missing evidence, approval delays, and disputes
